SECTION I. The Structure and Intent of Your Life.

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

A. Hemisphere and Quadrant Emphasis

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

1. Hemisphere

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

Most planets Below the Horizon

You have the majority of your planets below the horizon showing that you need time each day in isolation in order to recharge your batteries. You have a personal approach to life, preferring to work with people more than things and needing contact with the familiar in order to feel secure.

Most Planets Rising

You have the majority of your planets on the eastern half (or left-hand side) of your chart showing that you take great pains to be sure that you are free to act as you wish in life. Freedom of movement and expression are important to you. You have a strong feeling that you make your own destiny.

2. Quadrant

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

Most Planets in the First Quadrant

You have the majority of your planets in the first quadrant showing you will seek a lot of life experience to enhance you and develop your sense of selfhood. Your own personality and its uniquenesses and intricacies are the major focus of life experience for you.

B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

Fire

You have 30% of your chart in the fire element. This fire supplies you with great energy for your own personal projects. Still, you suffer if the projects that you select are too big. You need quick victories to keep from losing heart, and to keep believing in yourself.

The magic ingredient is believing in yourself. When you forget this, your life produces much frustration; you end up driven by duty more than desire. The trick to working with your fire element is to design the placement of your energy so that you get sufficient positive reinforcement, enabling you to keep reinvesting in your own projects.

Earth

You have an abundance of earth in your chart showing that you are a cautious and thorough person. You build material security in life. If, for any reason, this isn't happening you feel miserable. This can point to a problem of valuing the wrong things in life and chasing empty dreams. Ask yourself how much you really need and let it go at

that. You can be an earnest and hard working person if over-acquisitiveness doesn't blind you.

Air

You have no air in your chart. This shows that you spend little or no time thinking about abstract issues. You go straight to the "bottom line". It often appears to people that you come up with an answer to a question without any intermediate reasoning process. You do need to be careful that you don't act before you think, but the truth of the matter is that you just don't need to go through a slow, logical process. You need to be sure that your style of action does not offend people you wish to be close to. You may seem to lack diplomacy but this doesn't mean you are lacking in interest in people or that you don't care about others.

Water

You have 30% of your chart in the water element. The emotional content of your chart is so strong that it is never a neutral ingredient in your life. How you are able to integrate this quality of empathy into the rest of your personality traits will determine how well you will mingle with others. Learning good relationship skills early in life is very important to your proper adjustment and socialization to life and your culture.

2. Modes

The three modes are **CARDINAL**, **FIXED**, and **MUTABLE**. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

Cardinal

You have 20% of your chart in the cardinal mode showing that you are capable of both leading and following. You know how to assert your point of view or execute someone else's. Your preference is to follow someone else's lead and embark on your own path only when you feel it is necessary.

Fixed

A tremendous amount of your chart is in the fixed mode. You have endurance. Whether a course of action is good or bad you are more likely to stay with it than change. The principle of inertia is with you. When you rest, you have real difficulty getting going. When you are in motion, you have real difficulty stopping or even changing directions

(even slightly). People find you a loyal friend and a tenacious enemy.

Mutable

You have an abundance of mutability in your chart. You are a thinker and attempt to accommodate a number of circumstances and people in your environment. You may have difficulty choosing a direction and staying with it. Truth has a way of becoming a highly personal subjective factor; consequently, others think of you as not being able to communicate simple truths in a factual way. You are nervous and may need more B-Vitamins in your diet, rest, and meditation in order to be balanced.

C. The Ascendant and Midheaven (Signs and Aspects)

1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

LEO RISING

You have a strong, fixed, and sunny projection of yourself into your environment. You can be very openhearted and very kind to others but for all your optimism and openness you can suffer from narrow self-interest and have difficulty seeing larger issues than circumstances in your own life. Freedom and immediate pleasure keep your attention in the moment but your self-concern and a stubborn quality can stop you from achieving as much as you would like in life. Everyone seems to genuinely like you; despite this fact very few people ever get really close, as your aura of self sufficiency keeps you distant. You identify a lot with how your relationships go in life. Still, it is usually more positive for you to directly and personally express the artistic and creative side of your nature rather than have this flair for the dramatic emerge in the interactive arena, where it has the tendency to create chaos. However, regardless of the difficulties, you do always "land on your feet". Your environment and relationships will always emanate a basic sense of good taste regardless of how high or how humble your surroundings.

Moon Conjunct the Ascendant and in the 1st House and unafflicted.

You are very personable. Others instinctively feel your nurturing qualities, and are attracted to you. You can reach out to the general public and like dealing with lots of people. This quality works together with a general sense of self-acceptance to create a feeling of connection and wholesomeness. In close relationships you are not as warm as others have reason to expect but you do give of yourself.

Mercury Semi-Sextile the Ascendant

The gestures you use are sometimes inappropriate to your words. Your body language doesn't always agree with your message. Others have difficulty understanding you. With practice you can achieve a fuller expression of your true thoughts to others.

Saturn Sesquiquadrate the Ascendant

You have the experience of being the wrong person in the wrong place several times. Getting your rhythm in life to work for you doesn't mean working harder, it means working smarter. Your innate practicality and self-discipline eventually get you to your goals in life. The striving and learning for you revolve around learning to be consistent. This is helped by curbing your tendency to take on too much at once. Break life down into bite size pieces and recognize more clearly your limits. Learn to work with other people rather than around them. Overcoming your fear of others helps your sense of discipline and timing find their natural rhythm. You are shy and have a problem putting your best foot forward in life.

Neptune Square the Ascendant

You may not be able to prevent your being deceived by others, but you can strive to make sure that you don't do this to anyone else. Your ideals, your distaste for the unpleasant, coupled with your imaginative embellishments in life can add up to difficulties with people. It can be that you misappropriated some unrealistic ideals in your childhood that have tended to color your perception of the world since then. Your love of beauty will need some expression and you need some involvement with the arts and the culture as a whole in order for you to have solid and fulfilling emotional release. Learn more and more to see the world and its people as they are, not only as they could be.

2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be

fulfilled through our interaction with the outer world.

TAURUS MIDHEAVEN

You are solid. You can be stubborn and need to be sure you are not taking yourself or your position in life too seriously. You can be quite loyal but also a real "turf protector" and closed to new input. This quality can contribute to long range success built on slow, cautious accumulation or can be responsible for you setting your aim so low in life that you don't live up to your potential.

Sun Square Midheaven

You have a strong personality that others recognize and this promises that you go through a rise in life to a position of betterment. This is not always a straight climb up the mountain side as you are gripped in some inner conflicts that get you into trouble and slow down your forward progress. Most of these conflicts give you difficulties with authority figures and impair your ability to learn quickly from them. When matters of pride and control are handled properly you grow quickly and find very positive self expression in both career and home life.

Venus Trine Midheaven

Your timing and sense of social grace really facilitate your getting along with others. You like working with people and have a gentle side of your personality that emerges in career. You will long for some artistic expression.

Jupiter Square Midheaven

You run into difficulties in your career climb as your values are out of step with those of your boss, your company, or your society. You like people and this quality of being works wonders for you. As soon as you cross into the learning mode of doing business with others (instead of constantly telling others how everything should be done) your foundation in career is secure and firm.

Uranus Trine Midheaven

You have unique problem-solving skills. You go straight to the heart of a difficulty and start working to clear the problem up. You look at the world through a universal lens and consequently come full circle in your perspective. You excel in careers that require innovation. You are quite good at astrology, the occult sciences or some highly original discipline.

Neptune Applying Opposition to Midheaven and unafflicted.

You have a deep psychic reservoir of information. If you live near a large body of water or in a primitive environment you may find the inner side of your nature has an easier

time making itself available to your conscious mind. Your psychic impressions about people are often quite accurate.

Pluto Trine Midheaven

Computers, math, psychology and working with symbols can be important on your job. You like digging out secrets and can be very well suited for research. You have strength of character that makes you a difficult person to oppose.

D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

Sun Conjunct Jupiter

Think of Sections II. THE SUN - Your ego structure and VII. JUPITER -Your values, as a single unit. These two very primary ingredients of your being express themselves together. Whatever affects one of them affects both of them. This Conjunction represents a central theme in your life.

Venus Conjunct Uranus

Think of Sections V. VENUS - Your love nature, and IX. URANUS -Your search for freedom, as a single unit. This Conjunction is fundamental to the way you form values in life and to the ways that you pursue your various projects. The abundance of energy present here gives you some dramatic shifts in your life situation every so often.

Venus Conjunct Pluto

Think of Sections V. VENUS - Your love nature, and XI. PLUTO -Your need for fundamental change, as a single unit. This Conjunction represents a central theme in the formation of your values. An underlying intensity is present that conveys power on all that you get involved with.

Uranus Conjunct Pluto

Think of Sections IX. URANUS - Your search for freedom, and XI. PLUTO -Your need for fundamental change, as operating together. This combination shows strength of purpose and drive for spontaneous creativity. This Conjunction is a central ingredient in your life.

SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere.

In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

SUN IN LEO

You clearly see yourself as the center of your own life. You radiate a natural joy and goodness to life. You have a strong inner dignity and sense of self-respect. You must have some self-expression in life and you will look at any activity as a chance to create.

Although you are somewhat theatrical and flamboyant, you inspire others who often get some vicarious enjoyment through watching you. Pay more attention to detail and show more concern for other people's needs and your life automatically becomes more fulfilling.

Sun in 12th house

You are an idealist. You are open to the crosscurrents of society. You need time alone to sort out your own material and to avoid overload. Because you perceive too many options you may have difficulties in getting started on a project, but the "long haul" generally works for you because you often surprise others with your endurance when you are emotionally committed to a course of action.

Sun in 12th house Unafflicted

You are often moved to do things which improve the quality of life in our society. You may enjoy working in some large institution or in a capacity of service. There is a natural rhythm in life of moving in and out of contact with the outer world. Your inner life is rich and will periodically absorb all of your attention.

SUN SEMI-SEXTILE VENUS

You have a charm, a beauty and an inclination to do good. You need to make sure that you don't become lazy and give up striving for the good after suffering some disappointments in life. The desire to nurture and your fascination with your own receptive qualities can put you in touch with many different types of people in life. Learn discrimination and your life is much more pleasant.

SUN IS IN HARD ASPECT TO YOUR MARS

You are energetic and brave but sometimes too impulsive or rash. You hurt yourself and others at times through outbursts of temper. You can back a losing cause at times, throwing good energy after bad. You do this because you view your goals through a desire-incrusted lens which distorts your vision or because you mis-evaluate your own power, or both. You can guard against this tendency by learning to draw conclusions from all of life rather than just your own immediate wants. You are naturally powerful but need to guard against the tendency to run over others.

SUN SQUARE YOUR MARS

You are full of energy and passion. Your intensity and power color everything that you do. Planning and focus are very important because your goals switch and your desires are always changing. When you are angry, thoughts of revenge and general hate or avarice drag you into a pattern of destruction. Your energy stays productive when you acknowledge, then harness your desires.

SUN CONJUNCT JUPITER

You are generous but don't always make the best judgment as to where you can do the most good. There is a good-hearted optimism at the center of your being which takes the edge off other things that may be problematic. You think well of people and are a good judge of character. Your vitality is good but you do need to watch that you are not overindulgent. You love luxury and too much of a good thing can be trouble. Although you do have financial gain, at times you can be extravagant.

SUN IS IN SOFT ASPECT TO YOUR SATURN

You are self-disciplined and self-aware. You are ambitious and are willing to work hard to put your vision into action. Your naturally conservative instincts lead on a safe and sure path although it may well be a slow one. Being basically of sound judgment and reliable, people tend to trust you; these qualities alone may put you in a position of leadership at some point.

SUN TRINE YOUR SATURN

Your upbringing, family, and personal history lead you to expect the good in life. Your lofty expectations underlie the "lucky breaks" that come to you. Your personality has a cautious, serious, and disciplined ingredient that supports your vision of life which is practical and specific but also limited. Your productivity is linked to your instinct for finding the "law of gravity" operating through the center of any project.

SUN IS IN HARD ASPECT TO YOUR NEPTUNE

You have a deeply secretive side to your nature. You are romantic, humanitarian and idealistic. You suffer from an excess of emotion and exaggerated sensitivity to anything that goes wrong in life. Unfortunately, something going wrong can mean merely that it didn't live up to your expectations which can be quite inflated. Your life becomes a dynamic, unstoppable force for good once you accomplish two things: one, you must become self disciplined (i.e. ascetic) enough that you overcome self-indulgence in every form, and two, you must know life by knowing, really knowing, yourself.

SUN SQUARE YOUR NEPTUNE

Idealistic and hypnotic, you dissolve the world around you. Your sense of self and the world is without boundaries. Definition is difficult for you because of this. You can lighten up and inspire others, but, lead them down the "primrose Path" until you know where you are going. Once your own direction is clarified (no easy task) you can help others. You are compassionate but have confusion as to an appropriate manner of expression. Until you gain self-definition helping others is always fraught with danger .

SECTION III. The MOON - Your Personal Life.

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality

that are used instinctively, habitually and with a high degree of versatility.

MOON IN VIRGO

You are analytical, critical and technical. You have a habit of getting into the "nuts and bolts" of a job, right away. You know how to make yourself useful. You like to render service and are good with detail. In matters of the heart you can be cold and aloof with a tendency to hold yourself back. When things don't work out for you, try not to blame anyone else. Next, try not to even blame yourself. You are practical and know how to get things done. All the industriousness in the world can't bring you happiness though. You must relax to love.

Moon in 1st house

You experience the world through your emotions. You enjoy interactions with people and consequently may find life most enjoyable when you have an opportunity for lots of quick interchanges with the general public.

Moon in 1st house Unafflicted

You have social ease with the public. You are emotionally open and this conveys an image to others that you are understanding and empathetic. You do well handling lots of details and situations which require quick and versatile responses.

SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

MERCURY IN CANCER

Your mind is colorful and very emotional. You have a retentive memory and a great imagination. You have the ability to express yourself with a good amount of emotional force. When you are hurt, worried, scared or angry, you may not reveal to others what is really on your mind. The emotional content of your mind may prejudice your perception of what other people are doing or why they are doing it. Aim to be more balanced. You adjust under unpleasant circumstances easily if nothing that you rely on for emotional security is threatened. When home, family or a love object are uncertain, you can be very disturbed. You need to develop new solutions rather than using a patchwork of old methods.

Mercury in 11th house

You have a truly comprehensive approach to life. You are open minded and adaptable. You enjoy intellectual friendships. You have a strong desire to earn your own way and carry your own weight in life.

Mercury in 11th house Unafflicted

You experience extremes in income. This is directly connected to your fluctuating thought process. You have great variation in your personal interests from one year to the next. This in itself will not bother you as you have a lighthearted outlook. But, when you focus on your heart's desire without distraction, you experience a deep emotional calm.

MERCURY SEMI-SQUARE VENUS

You have a real interest in communicating your thoughts to others; you have a pleasing manner of expression. However, you will occasionally hurt your cause by telling people what you think they want to hear rather than what you really believe. Try to be consistent in thought and speech. You will experience more stress in the short run but greater peace of mind.

MERCURY IS IN SOFT ASPECT TO YOUR URANUS

Lightning flashes of insight periodically send your life off in a new direction. Your intuitions are very accurate and you see to the core of an issue rapidly. You are very good at finding a shortcut that periodically intersects a major highway in life. For this reason you have a very useful as well as inventive mind. You succeed in any environment where you are allowed to contribute new methods and applications. You have the uncanny ability to speak others' thoughts before they surface. This makes you a hit while brainstorming or in any progressive circle of people. You have a natural interest in astrology, alternative healing, and New Age subjects.

MERCURY SEXTILE YOUR URANUS

Your mind is alive with new ideas and strategies. You are alert, versatile and insightful in your approach to life. Impatience and nervous exhaustion are your enemies. Your outlook is progressive and creative and your viewpoint will change as new information is acquired.

MERCURY IS IN SOFT ASPECT TO YOUR NEPTUNE

You see the future in everything that you do. You aspire to some long range goal or value. This may surface in a spiritual longing or in an artistic pursuit. You have talent for creating beauty and a natural eye for what looks nice. You do well in any career that engages your ability for aesthetic design. You have powerful and often quite accurate

premonitions. Learn to work with and integrate your psychic perceptions.

MERCURY TRINE YOUR NEPTUNE

You have dramatic presentations and can create great fantasy for yourself and others. Your compassion and instinctive feel for others comes forward in your mental life. You are in tune with other people's picture of life so you can be good at communicating an idea in a way that builds consensus.

SECTION V. VENUS - Your Love Nature.

The planet Venus shows the way you express your love nature and what you aspire for in life as good or beautiful. Venus has much to do with how you form your values. The sign placement of Venus shows the type of love energy you have. The house placement of Venus shows the natural area of expression of the love energy. The aspects of Venus indicate how and under what circumstances you express the gentle and loving side of your nature.

VENUS IN VIRGO

Your great love in life is purity and service. You are detached to the point of being cold at times. You want to be of help to others and stabilize your own nature through established routines and rituals. You like order and perfection. When you are troubled you find peace through isolation and the avoidance of all intimacy. Your feelings don't run particularly deep but they find practical expression and you are someone who can be counted on.

Venus in 1st house

You are loving and often physically attractive. You know what to present to others and you are good at putting on a happy face. Your sense of taste and social diplomacy is noticed by others. You like other people and desire their appreciation.

Venus in 1st house Unafflicted

Your charm and basic honesty attracts people into your life. Your artistic instincts can be developed into genuine talent, for you can see the beauty in life. Others see this beauty manifest in you, as you have a knack for putting your best foot forward.

VENUS IN ASPECT TO THE SUN

You have an aspect of Venus to the Sun showing that you identify at a very fundamental level with your ability to express the loving, genteel side of your nature. This aspect of your nature was commented on in some detail in Section II. The Sun - Your Ego

Structure.

VENUS IS IN SOFT ASPECT TO YOUR MARS

You are a good partner and a good relater. You have a positive interest in marrying and will probably settle down in a permanent relationship early in life. You have an eye for value and will do things with people that increase your net worth. You are practical and make decisions that are profitable.

VENUS SEXTILE YOUR MARS

Your love nature is very energetic. You like people and learn much through relationships. You are very interested in having a romantic life and will go at it with some enthusiasm.

VENUS CONJUNCT URANUS

You are humanitarian, idealistic, intuitive and impressionistic in love. If you are interested in something, you love it, even if only momentarily. If you love something you are capable of immediate and deep sacrifice for it. This gives a highly charged, impulsive and romantic color to all of your human interactions. You are truly at home in the ideal realm. You are always looking for a loftier, more abstract truth. Money comes and goes as it is difficult for you to save systematically.

VENUS CONJUNCT PLUTO

You may not be particularly sentimental but if you love someone, you love them completely and forever. You live on the emotional extremes. People are either important to you or they don't even exist. Your feelings are deep and volcanic. You love power and control which is fine if you have learned to control yourself. You are magnetic and surrounded with an aura of mystery. You deal with groups and group resources. You may have leadership in some creative project or in some financial enterprise. You polarize people: they either love you or hate you but are seldom indifferent to you.

SECTION VI. MARS - Your Energy.

Mars is the planet of desires. It shows how you aim at your goals and how you power yourself toward your goals. Mars represents your most fundamental wants. The sign placement of Mars shows the fundamental nature of your assertions. The house placement of Mars shows the area of your life you are most likely to focus on. The aspects to Mars show how and to what extent your desires and assertions are involved with other aspects of living.

MARS IN SCORPIO

Your desire nature is strong, maybe even insatiable. You are passionate and your energy is unrelenting and disciplined into channels toward perceived goals. You go after what you desire in life with your whole being. You are thorough and when angry can be ruthless. You can be quite self-contained and you have an austere quality that means you can keep going even against great odds for a long period of time. You need to learn how to relax. Life is not always a battlefield.

Mars in 3rd house

You are a quick learner in youth. The dynamic energy for life and learning carries you through your teen years. As a young adult you may build unrealistic self-assessments into your way of learning. This comes because you expect life to follow along the same groove that it did when you were young. It doesn't! You will need patience to learn as an older person. You favor a direct manner of expression and others see you as being mentally assertive.

Mars in 3rd house Unafflicted

You convey the picture of yourself to the world as a brilliant communicator. You are a quick study, learning at the surface level of perception much more easily than others. You learn "how" without needing to learn "why" and then go on to something else. Remember the race between the hare and the tortoise? The hare can always win if it has the drive to keep going. Select projects that finish quickly. You can focus your attention easily on short term goals; long drawn out endeavors require different skills. This talent will get you quickly out of the "starting gate".

MARS IN ASPECT TO THE SUN

You have an aspect of Mars to the Sun. This shows that you have a very strong and direct nature. Your energy and vitality are key ingredients to your self concept. This issue is taken up in some detail in the Section II. The Sun - Your Ego Structure.

MARS IN ASPECT VENUS

You have Mars in aspect to Venus. This aspect shows sex appeal and interest in romance. This aspect is covered more fully in Section V. Venus - Your Love Nature.

MARS IS IN HARD ASPECT TO YOUR JUPITER

You are lucky but overstep your limits time and time again. You are truly lucky when you learn how to walk away from the dice table a winner rather than always going for double or nothing until you lose. Your tendency is always to try to multiply a winning situation rather than just accepting it as a win at face value. Enough is enough, learn to be satisfied. In human relationships you are often in a kind of good-natured competition even with those on your team. You think of this as building character and personal

reliance but others will see you as selfish and a poor team player. Your boldness and bluntness needs to be curbed; for even though people may like you, they will not trust you.

MARS SQUARE YOUR JUPITER

Enthusiasm, energy, optimism and luck carry you a long way in life. However, hypocrisy, misappraisals, tactlessness, and bombasticness cause you trouble. If you have patience, good judgment, and take the time to lay a good foundation in every project you undertake, you will go far, have a winning flair, and lots of luck. Your natural instinct to gamble will "do you in", but, controlled, this same impulse gives your personality color.

MARS IS IN HARD ASPECT TO YOUR URANUS

You have quite a temper and your anger will be a stumbling block in life until you have handled it. You hate being trapped and act quite selfishly when cornered. This is overcome when you corral your emotional energy and find some peace of mind. Three things aid in this process. One, you need physical exercise every day in order to feel emotionally balanced and in good health. This is a release for your nervous energy.

Two, you need to come to terms with the nature of your desires. Study your own nature to see what motivates you. This allows you to not blame others for your emotions or the situations you have gotten into. Three, develop a long range view of change that symbolizes freedom to you. You are a powerful innovator and just need to re-channel your energy so that you don't have to create and experience so much disharmony.

MARS SEMI-SQUARE YOUR URANUS

Your anger is your enemy, but your uniqueness is your friend. Be willing to take bold steps but be aware of difficulty that emerges when you are angry. Anger is the "short-circuiting" of a frustrated mind. Think before you act; your energy expresses itself in a more positive manner.

SECTION VII. JUPITER - Your Values.

Jupiter is the king of the planets. He is in charge of the order of creation. Jupiter shows your values, where you feel confident and in control, and where you feel you have something to teach others. The sign placement of Jupiter shows your values in life. The house placement of Jupiter shows the area of life you feel luckiest in and the area you receive the most help from other people and from the cosmos. The aspect patterns to Jupiter show the direct network of good and administrative power in your life.

JUPITER IN LEO

You are drawn toward anything that gives you expression because your primary value is

to display what you find in yourself. You create a dramatic effect in life through personal display and amplification. You have a natural inherent pride in all you do. You are loyal to ideas, ideals, and beliefs as well as people. A powerful sense of self colors the way you express your compassion to the world. You are universal in outlook and naturally attracted to a big picture of life in general and of your life in particular. You are generous because you believe you should share what you have. Your feeling is always that you have so much. Since you are optimistic, you see opportunity where others only see limits. There is an expansive and pervasive quality to the way you meet life. You create much in life but need to be on guard against vanity and extravagance; both can happen automatically, and both cause you much trouble.

Jupiter in 12th house

You have luck. It may not arrive until the last possible second, but you do have it. Time spent by yourself is always rewarding. You benefit through meditation, visualization, and quiet study.

Jupiter in 12th house Unafflicted

Your secret life is a deep source of strength and inspiration. You like organization and it is through your affinity for collective efforts that you find expression of your highest ideals. Others take what you say to them quite seriously. Never violate a confidence and you will help many people in your life.

JUPITER IN ASPECT TO THE SUN

You have an aspect from Jupiter to the Sun showing a deep connection between your values and your ego. As a consequence of this you have a stronger faith in your beliefs than most people and you are more likely to act on them. You have the potential for being quite an inspiration for others. In Section I. (The Sun - Your Ego Structure) there is more commentary on this trait of yours.

JUPITER IN ASPECT TO MARS

You have an aspect of Jupiter to Mars. This aspect shows that you have an optimistic spirit and have the ability to assert your desires. Your enthusiasm may come forward as combativeness or as competition but in either case you are a lively participant in life.

Your values and your energy emerge as zest for living. This aspect is commented on further in Section VI. Mars - Your Energy.

JUPITER IS IN SOFT ASPECT TO YOUR SATURN

You have an underlying self-confidence that is based on your belief that life will give you whatever you want if you are willing to work for it. You see the reasonableness in the way that things happen and are willing to invest in yourself. You are very industrious, believing that hard work will bring you progress. You have a taste for material

acquisition but are willing to work for what comes to you.

JUPITER TRINE YOUR SATURN

You see opportunity in ways that enhance your security and places where others only see limitation. A stable foundation in life comes through correct judgment and knowing how to take intelligent risks. You are fortunate because you have an inner guidance that leads to following well established procedures and principles unconsciously. You deal with limits and obligations in ways that help you achieve your goals.

JUPITER IS IN HARD ASPECT TO YOUR NEPTUNE

You feel lucky and that gets you into trouble. You get overextended and into financial hot water before you know what has happened. Being gullible and naive, you suffer through believing in your own fantasies. Because you are kind and sympathetic, you go out of your way to help others. But here you can suffer through poor judgment as to what will be of real and lasting help. The way out of this confusion is not to be less idealistic or less sympathetic, but instead to be more long-term in your vision. Ask yourself what will be important 10 years from now in your immediate considerations. Taking the long view of yourself and of life is an acid test for moment to moment decisions.

JUPITER SQUARE YOUR NEPTUNE

Your values and beliefs are in conflict with your vision of truth. You get confused as to what your direction should be. Your biggest problem can be having unrealistic expectations. You may be lazy and think that the good things you dream about will just come to you with no effort. Your faith in life, as misdirected as it is at times, will certainly sustain you, and it certainly does aid you in attracting the good things that the world and other people have to offer.

SECTION VIII. SATURN - Your Obligations.

The planet Saturn shows where you feel restricted. You feel obligations and fears through Saturn. Because of your feeling connected with Saturn you are either responsible or neglectful. The sign placement of Saturn shows the basic type of energy connected with your obligations. The house placement of Saturn shows an area of life that you feel restricted in and work hard to obtain the things that come to you. The aspects of Saturn show the most direct involvement of other areas of your life with your feelings of responsibility.

SATURN IN ARIES

You have a fear of being stopped or opposed. Your will is strong and you strike out in a way to avoid this situation. Your way of interaction often lends itself to

misunderstanding. Your manner of being is so self-justifying and so retiring you will probably have to work hard at developing rhythm, cadence, and self-reliance. Your timing is often quite bad. This is improved when you develop a better sense of your own abilities and depersonalize experiences somewhat.

Saturn in 8th house

You know how to discipline yourself and keep your desires in check. Relationships seem to be driven by a sense of duty as they tend to drain your energy and your money. This is preventable. Clarification over possessions and responsibilities helps you maintain productive exchanges with all your associations.

Saturn in 8th house Unafflicted

You know instinctively how to benefit from existing structures. You may come into an inheritance at some time that carries several conditions with it.

SATURN IN ASPECT THE SUN

You have Saturn in aspect to the Sun showing that you identify deeply with your obligations in life. This aspect of your nature is explored more deeply in Section II. The Sun - Your Ego Structure.

SATURN IN ASPECT TO JUPITER

You have Saturn in aspect to Jupiter showing that you have an interest in procedures and legal structures. This interest is discussed in Section VII. Jupiter - Your Values.

SECTION IX. URANUS - Your Search For Freedom.

The planet Uranus is beyond the orbit of Saturn and can't be seen without the aid of a telescope. It represents the sky in us, that which transcends the limits of finite life.

Uranus raises the vibration of everything it contacts. The sign placement of Uranus shows your broadest striving for freedom. The house placement of Uranus indicates your area of direct unique expression. The aspects to Uranus indicate the way you express your need for higher consciousness.

URANUS IN VIRGO

You see a picture of perfection and you willfully dive toward it. Although you are insightful, you need to stay open to alternate points of view.

Uranus in 1st house

You are a true individualist. You favor the new, the unusual and the unique in life. Your appearance deviates from the norm. You will have at least two distinct tones to your hair.

Uranus in 1st house Unafflicted

Although you are unconventional and restless, your lively, freedom-loving and original outlook on life is refreshing. Others use you like a "spark plug" in their lives and think of you as an innovator.

URANUS IN ASPECT TO MERCURY

You have Uranus in aspect to Mercury. Your Mental attitudes express your quest for freedom. This is explained in Section IV. Mercury -Your Mental Life.

URANUS IN ASPECT TO VENUS

You have Uranus in aspect to Venus. You look for freedom in your love life. You express your creativity in a unique way. This is explained in the particular in Section V. Venus - Your Love Nature.

URANUS IN ASPECT TO MARS

You have Mars in aspect to Uranus which means you are attempting to raise the vibration of your desire nature during the course of this life. Exactly how that works out in the day to day world is shown by Section VI. Mars - Your Energy.

URANUS IS IN SOFT ASPECT TO YOUR NEPTUNE

You have an interest in spiritual subjects and are inclined to live out one of your higher visions of truth at some time in this life. You project a big picture of the possible in society. Your unconscious mind is a forceful, creative energy that bursts forth every so often.

URANUS SEXTILE YOUR NEPTUNE

Your underlying faith in some higher all encompassing truth gives you balance and a belief in your own ability to achieve personal freedom some day. Further, you are quite tolerant of many other approaches to change other than your own. You distrust back sliding, indecision, and lack of motion.

URANUS CONJUNCT PLUTO

You have a compulsive and unconscious desire to change. There is a revolutionary quality to the way you go about bringing change in life. Years can go by relatively peacefully and then all of a sudden there is an explosion in your life. When the dust settles all goes well again but you and your world are never the same. Real change is

always fundamental.

SECTION X. NEPTUNE - Your Spiritual Aspirations and Ideals.

The planet Neptune has an almost perfectly circular orbit. It represents the part of our nature that strives for perfection, that looks to some higher ideal. The planet Neptune rules the ocean and the part of us that is beyond the limits of the shores of personal existence. The culture moves with the cycles of Neptune and it is the primary indicator of your connection to the culture that you live in. The sign of Neptune shows an ideal that you desire to manifest. The house placement of Neptune shows the area of your life that you want to express this ideal in. The aspect patterns of Neptune indicate the most direct connections yet most subtle networking of your personality into the world at large.

NEPTUNE IN SCORPIO

You have powerful and unconscious impulses for sensation. You wish most of all to keep a social ideal alive through emotional intensity. You struggle to work out your secret desires.

Neptune in 4th house

You go to some trouble to secure the congeniality of your home environment. Your roots in life are tied to your spiritual outlook. You may live in surroundings that strengthen your intuition of psychic perceptions like being near a large body of water or in a spiritual commune.

Neptune in 4th house Unafflicted

Spiritual longings grow stronger as you get older. You are able to create an island of solitude where you can retreat from the day-to-day pressures. As you get older, this inner fortress stops being so much an escape and more a pillar of stability in your personality.

NEPTUNE IN ASPECT TO THE SUN

You have an aspect of Neptune to the Sun showing that you have a gentleness and lofty vision of life. How this works out is shown by Section II. The Sun - Your Ego Structure.

NEPTUNE IN ASPECT TO MERCURY

You have an aspect of Neptune to your Mercury showing a deep vision of the truth and some psychic awareness. This perception of yours is discussed in some detail in Section IV. Mercury -Your Mental Life.

NEPTUNE IN ASPECT TO JUPITER

You have an aspect of Neptune to Jupiter. This indicates that you have a lofty vision of the possible in life and that you attract good things by this expectation. How this works out for you is shown by Section VII. Jupiter - Your Obligations.

NEPTUNE IN ASPECT TO URANUS

You have Neptune in aspect to Uranus showing that one part of your nature will have a propensity to act out the unexpected. How this manifests is indicated in Section IX. Uranus - Your Search for Freedom.

NEPTUNE IS IN SOFT ASPECT TO YOUR PLUTO

You are fundamentally an idealist. You would like to see change come about in a way that doesn't destroy the existing social order. You believe in transition and transformation as saner and kinder principles of social change than revolutionary upheaval.

NEPTUNE SEXTILE YOUR PLUTO

Your higher ideals are the continuous recipient of forceful energy for change. Your long range perspective (even though this may at times be unconscious) is always toward your ideals winning out through deep self transformation.

SECTION XI. PLUTO - Your Need For Fundamental Change.

The planet Pluto represents the dark underground part of you. It shows your ability to transform the most fundamental properties in your own inner nature. The sign of Pluto is the way the obsessive, compulsive and committed part of your nature expresses itself.

The house placement of Pluto shows the area of life where you make your most fundamental and most potent changes. The aspects to Pluto show the deepest most unconscious links in your personality structure.

PLUTO IN VIRGO

At best, you have critical powers to discriminate between that which works and that which doesn't. There is a striving for perfection at the core of your being that can narrow your horizons so far that you focus too much on basic issues connected with your own life. At worst, you are so critical that you slow down everyone's effectiveness. Patience and hard work are required in order to complete your personal transformations.

Pluto in 1st house

Life is a battle to you. You are powerful. You are so secret that you don't even know

what goes on in your inner depths. You are a loner and a magnetic and adventurous explorer. Your hunger for experience is insatiable.

Pluto in 1st house Unafflicted

Others don't understand you but they do respect your ability and your vast array of potentials. Your robust and dynamic intensity is generally admired and utilized by others. You may make a good troubleshooter because you are intense and self-reliant.

SECTION XII. SUMMATION.

A. YOUR UNIQUENESS

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

YOUR MAJOR PLANETARY ASPECT IS A PARALLEL AND CONTRAPARALLEL.

You are very resourceful. You always find a deep inner strength with which to take some steps forward. When the going is difficult, you are still able to build some type of victory or personal reward on anything that happens in your life. You have a passive ability to endure and wait. You have an active talent for planning. Your keyword is Reorganization.

B. YOUR EASIEST AREAS.

The following material is an index of things that you have developed as inner resources.

You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Well-Aspected Saturn.

You know your limits. This single quality can stop you from getting into any deep troubles as you instinctively pull back to preserve your gains before you become too vulnerable. The conservative side of your personality is an asset.

Well-Aspected Pluto.

Your ability to be thorough and absolutely no-nonsense when it comes to reorienting yourself in a time of trouble is especially helpful. Your sense of timing is usually accurate. You can turn a delicate project into an assured success by being 100% behind it.

Sun in Leo.

The strength and surety of your ego structure is a tremendous personal asset. Your ability to naturally and immediately focus all your attention on your own self is a help in everything you do.

Mercury in the Eleventh House.

You are very good at getting input from others when arriving at a conclusion or looking for a new direction. Conversation is always stimulating and generally productive.

Mars in Scorpio.

You have great stamina and a powerful presence. You win in life by being able to keep creating more energy from somewhere deep inside. When you are committed you have the energy. The way that you get things to happen in your life is by being persistent. Application of your energy over a long period of time always brings you some of what you want.

Jupiter in the Twelfth House.

You have unconscious faith in life and social processes. This positive attitude brings you luck and operates like a guardian angel in your life.

Neptune in the Fourth House.

Your natural feeling for your own life and life in general is very positive. Family and your emotional roots can create a pattern of positive expectation that you can always fall back on.

C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Venus in the First House

You may suffer from a heavy dose of vanity. The only way out of a self-created trap is when your picture of yourself has risen to identify with all life. Then, you build relationships on love and beauty that are unique and lasting.

Venus in Virgo

You are service-oriented in your expression of love for others, for you wish to be of help. But, you need to feel better about yourself so that you can give and receive love based more on who you are, and less on what you do.

Saturn in Aries

You have difficulty in self-expression. You accomplish more when you stop trying to avoid your real obligations and just execute them. You appear to others as if you have a "chip on your shoulder". Get rid of your fear of others and relationships improve.

Pluto in Virgo

You suffer in the process of self-transformation because you have difficulty in making the decision to change yourself rather than changing circumstances in your life. Get more basic, change your attitudes and habits and life becomes much lighter.

D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities

mentioned here can be the very mechanisms to release the highest, finest side of your nature.

Sun Semi-Sextile Venus

The quest for beauty can lead you away from a path of personal development. This is because the object of your search in life seems to you to be substantially different from what you find as your own inner resource. Through self observation you come to realize that it is the beauty in you that perceives the beauty in the world. True progress for you can be won through achieving a balance between your own inner drives and what you see in other people that you judge as significantly different from what you find in yourself.

Venus in Growth Aspect to Jupiter

More is not necessarily better. Personal development requires consistent reevaluation of values. As you decide what is worth having in life you feel happy. When you aren't achieving your goals it is because you are aiming at something that will disappoint you. This indicates a time to reevaluate what you are ultimately finding as important.

Venus Semi-Sextile Jupiter

You could be much more successful and satisfied with your life than you usually are. In order to achieve this you must act. You suffer from believing, correctly, that you have the good things in life coming to you. But, when you just wait, they never seem to arrive. You desire some positive things and you can easily have them. But, you can't be the passive recipient, expecting them to arrive. You must acknowledge that you want them; then, pursue your hearts desire.

Venus in Growth Aspect to Saturn

You limit your own arena of emotional expression. Getting over your fears and learning how to correctly value your self and others is the path to positive, responsible expression of your feelings. The path of self knowledge requires some fine tuning of your way of exploring relationships. Overcoming fear of others and your inherent shyness only happens with practice. The rewards are that you learn about yourself while getting closer to others.

Venus Quincunx Saturn

You have difficulty seeing what you are actually responsible for in relationships. Consequently, you take on more responsibilities than necessary in order to insure the continuation of your relationships. Do people like you for you or because of what you do for them? You are easily confused on this point. If you are busy doing things for people, they never get a chance to know the real you.

Mars in Growth Aspect to Saturn

Nagging personal insecurities can lead you into bad, even self-defeating stances with others. Your troubles come to you through a twofold process. First, misperceiving limitation, then, reacting to those imaginary limits. Your underlying frustrations lighten up when you recognize that you need a more correct measurement of what you are capable of achieving. This requires letting other people give you a judgment of your talents and skills. Patience and endurance eventually give you better use of your energy.

Mars Quincunx Saturn

Your sense that only you can do something right is lodged in your imbalanced self picture. Too much work and too little spectrum of relating leaves you feeling slightly victimized by life. You create your own limits. Slowing down and quieting down helps you see this. You need a better sense of time, then you achieve better results with less effort. You can do this as soon as you are more balanced in your outlook and your judgment works in a less comparative mode.

E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane there are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspect activate your ability to organize and reorganize some aspect of your life.

Sun Parallel Jupiter

Over-expanse gets you into trouble but your positive expectations help you gain many rewards in life. Your cheerful optimistic spirit assists you in bringing any project to a good conclusion. The ability to create more of whatever you have, becomes problematic whenever you have difficulties or troubles as they can also multiply. Your mental attitude holds the key to your actions, just as your values hold the key to the way your mental life unfolds.

Venus Parallel Saturn

You have real difficulty in expressing the joy of life, but you do have quite an ability to hold yourself to a commitment once made. The difficulty here is learning to accept limitations and restrictions. Once this is accomplished you easily give of yourself to help others. "Real happiness lies in making others happy." To learn this is to find your joy.

Mars Parallel Neptune

You have a powerful charismatic side to your personality that is hidden in your depths. When you are able to tap into this quality in a positive way you help other people reach for a positive ideal within themselves. You have the perfection of an idea living inside of

you as a vision. Manifesting it comes when you are true to your highest calling.

Jupiter Parallel Pluto

You have the ability and opportunity to produce great wealth and abundance in life. You have luck, determination, and the focus to create something of value. Overdoing things and pride are your weaknesses and when overcome your relentless drive produces much of value.

Jupiter Parallel Midheaven

You have luck when it comes to getting a job and you can use this skill to make many beneficial changes in your life. You believe in yourself at some fundamental level and this positive attitude supports you in achieving your goals in life.

Pluto Parallel Midheaven

There is a strong psychological twist to the way you deal with other people in the area of career. Some irrational fears of others may prompt you to avoid deeper interactions as these can lead to feelings of emotional vulnerability. You have a dissatisfaction with your position in life that prompts you to focus your energy on career and to keep trying to transform yourself in your professional role.

North Node of the Moon Parallel the Ascendant

You attract other people into your life at the critical moment of personal development. The people that are problematic in your life represent a pattern that you must deal with in order to grow at the deep interpersonal level. Otherwise, relationships of an intimate variety are an endless string of repeat performances.

Sun Contra-Parallel Mars

Feeling that others are not to be trusted (or even out to get you) can be refocused into positive channels. However, this requires you to keep your energy and perceptions on a positive track. Exercise and release are important aspects of your life.

Sun Contra-Parallel Neptune

You have a deep sense for the dimension of life that is beyond reason, inspection, or rational judgment. The mystical side of your nature can lead to believing in people when they don't merit it. Your misunderstanding of others can be complicated by your need to retreat or escape from uncomfortable situations. You are at your best when idealism and faith are balanced by positive action toward building something that you believe in.

Mars Contra-Parallel Jupiter

Life is not a contest. Each of us needs to make it through, running our own personal course. In this sense there is no real competition. This is difficult for you to grasp as you are easily lead into thinking you must out-perform someone else. We each have a job to do and we must be true to this. You easily find an outlet for your own positive energy which functions best when you remember you are only striving to do your own personal best.

Jupiter Contra-Parallel Neptune

You have a genuine creative vision which can translate into genius if you are able to energize the poetical and mystical side of your nature while staying grounded in a productive mode. Your vivid and over-stimulated picture of the higher principles of the universe can lead to escapist tendencies but give a positive if misty picture of life.

F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

North Node of the Moon in Taurus

Practical concerns and involvement with material progress betters your self-esteem which in turn betters your life. Concentrate on simple basic principles and patiently accumulate security. Your foundations in life tend to be ignored as your energy is absorbed in overly personal projects. Let the passions of your heart and mind give way to a more matter of fact, simple, detached, and stable pattern of action; be less reactive, more patient and self satisfied.

North Node of the Moon in Taurus and in the Ninth House

You have a great need for people but you only recognize the aspects of other people that fulfill your emotional needs. You sexualize relationships. Your life is better, happier and more fulfilling when you explore new options and spend time by yourself sorting out your personal values. Mentally compulsive, you reexamine your interactions with others, but life is better by being firm, matter-of-fact and spontaneous. Be more empirical and less dogmatic. Avoid belittling others as this habit is just a by-product of your mental insecurity. Whenever you get angry or upset you should ask yourself "does it matter?"
